

Epicuro Surface Reviver

HIGH PERFORMANCE CLEANER DESIGNED TO REMOVE ORGANIC AND MICROBIOLOGICAL CONTAMINANTS FROM POROUS SURFACES

PRODUCT DESCRIPTION

Epicuro Surface Reviver is a high-performance cleaner designed to remove black spots, organic and microbiological contaminants from porous surfaces such as stone, block paving and concrete - returning them to their 'as-new' condition.

Epicuro Surface Reviver is a powerful and effective cleaner for stubborn areas of lichen and algae growth as well as organic stains (e.g. fruit).

Epicuro Surface Reviver is a fast-acting answer to surface cleaning, quickly lifting contamination from the surface without the need for heavy scrubbing or power washing.

Epicuro Surface Reviver is biodegradable, it does not contain solvents and is acid free.

Epicuro Surface Reviver is used to clean areas subject to high levels of foot traffic and other sources of dirt and contamination. Examples of use are high streets, public squares, around monuments, parks and out-door seating areas of restaurants and coffee shops.

Epicuro HBG-HD gives effective and durable protection for surfaces cleaned with Epicuro Surface Reviver.

Visit www.epicuro.co.uk to find out more.

PERFORMANCE

Epicuro Surface Reviver is a penetrating cleaner for stone, block paving, concrete and other porous surfaces, extracting normally impossible staining, e.g. lichen, algae and other organic soiling.

ADVANTAGES & CHARACTERISTICS

- Powerful and effective cleaner for stubborn areas of lichen and algae.
- Cleans previously impossible staining.
- Highly efficient & cost effective.
- Extracts organic soiling from the surface.
- Fast acting product.
- Low odour, biodegradable, solvent & acid free.

CONSUPTION

Coverage of **Epicuro Surface Reviver** depends on the type of substrate and the nature of the contamination.

Contamination	Consumption
Heavy soiling & contamination	3 - 4 m ² / litre
Light soiling & contamination	5 - 6 m ² / litre

STORAGE

If kept in original unopened container, **Epicuro Surface Reviver** can be stored for 2 years in a cool and dry place, protected from direct sunlight.

SHELF LIFE

24 months following the production date, when kept in original unopened container.

PACKAGING

5 Litre containers.

CHEMICAL PROPERTIES

Alkaline base.

INSTRUCTIONS FOR USE

SURFACE PREPARATION:

- Ensure surface is free from loose dirt, moss, and other debris.
- Test the product on target area before wide scale use, especially if the surface material is unknown.
- Protect adjoining areas not intended to be cleaned from overspray or spillage.

APPLICATION:

- Apply **Epicuro Surface Reviver** evenly to a damp (not wet) surface, by roller, brush or low-pressure sprayer.
- Saturate the surface with a generous, even, coat and agitate with stiff brush.
- Allow **Epicuro Surface Reviver** time to work, penetrating the surface and removing the contamination. The dwell time will depend on the substrate, thickness, type of contamination and the concentration of product used.
- Test a small area to determine the time required before completing the project. A minimum dwell time of 60 minutes is advised, but **Epicuro Surface Reviver** can be left in-situ for up to 24 hours if required for extreme soiling.
- Rinse with high pressure washer or running water and a stiff brush.

CLEANING EQUIPMENT:

- Clean tools and equipment using clean soapy water, immediately following completion of work.

RECOMMENDATIONS

Test the product on the target surfaces before wide scale use, especially if the surface material is unknown.

Do not use in wet weather, frost or if rain is expected within the application period. Ideal application temperature between 10-30°C.

HEALTH & SAFETY

See separate Health & Safety Data Sheet (MSDS) for full and safety instructions.

- **Eye protection:** wear protective goggles. Ensure eye bath is to hand.
- **Hand protection:** Wear protective gloves.
- **Skin protection:** Wear protective overalls.
- **In the event of ingestion:** do not induce vomiting. Contact a doctor or a specialist.
- **Respiratory protection:** Under normal conditions of use, where adequate ventilation is available, no special respiratory protection equipment is needed.

Where required, product users are responsible for preparing their own COSHH Assessments based on the Material Safety Data Sheets (MSDS) provided by Epicuro for its products.

KEEP OUT OF THE REACH OF CHILDREN

TECHNICAL DATA

Physical state at 20°C	: Liquid
Colour	: Off-white
Odour	: Perceptible Odour
PH	: >11.5
Specific Gravity	: 1.02
Coverage	: 3-5m ² per litre
Shelf-life	: 24 months from DOM

APPROVED APPLICATOR SCHEME

Approved Applicator training in product 'technology and application' is provided by Epicuro Protective Materials Ltd.
